

TSR ELECTRONIC A/S

Onshore, offshore...

TSR ELECTRONIC

With more than 40 years experience in the maritime sector, in Danmark and abroad. We install and maintain maritime electronic equipment for the fishing, commercial and offshore fleet, worldwide. We cover all the common solutions for e.g. communication, navigation, fish finding etc.

Flexible service... Worldwide...

We are ready to move out, when our customers needs help! If it's ordinary service, survey or repair, we are there when you need it.

Communication and computer solutions...

TSR Electronic covers the needs for our communication and computer solutions, on- and offshore. From small LAN networks to server solutions, V-Sat/Fleet Internet connections, VoIP or VPN, we have the solution for your needs!

New build/Rebuild...

TSR Electronic has a great experience in new building and not least rebuilding all types of boats. Mainly fishing vessel is a specialty, but also commercial, tug, coaster, offshore etc. has been made with great success over the years. TSR do not just deliver, we follow up. Satisfied customers are our brand!

Control Panels/Hydraulics solution...

TSR Electronic produces electrical control panels e.g. for Hydraulics systems – We deliver the system specially designed for the need, in close dialog with the customer.
